To whom it may concern,

This letter is in reference to Tony Cunningham Construction and Insulation. Over the course of the last 2 years, CMTA has worked with Mr. Cunningham for many construction related scope and we consider him to be a strategic partner with our turnkey energy savings projects. Mr. Cunningham has completed a multitude of scope items including lodge and residence weather-stripping, drywall repair and installation, wall and ceiling insulation, electrical work and other items that came up throughout the course of construction. We have worked with him on a Kentucky State Parks project that includes 10 sites across Eastern Ky as well as several KCTCS campuses. We have found Cunningham Construction to always be reliable, courteous, and he takes pride in his workmanship. No matter the task, he is willing to go the extra mile to get it completed on schedule and to the quality expected. In the end, Mr. Cunningham has always done exactly what he said he would do and our projects have always been a success. I would gladly recommend Cunningham Construction and Insulation to anyone. If you have any questions, do not hesitate to call.

Best Regards,

Jeremy Kelly, PE
